INDEX

UMI

SUBJECT INDEX

Abdominal/diaphragm, measurement of the relative contributions of, and rib cage, to tidal breathing in man, FAITHFULL, D., *et al.* 391
Acetylcholine release, effects of anaesthetics and helium pressure on, LITTLE, H. J., *et al.*, (*ARS*) 62P
Acid aspiration syndrome, HUTCHINSON, B. R., (*C*) 75
A–D circuit switch, the Johannesburg, MANICOM, A. W., *et al.* 1185
Advances in Neurology, Volume 20; Pathology of Cerebrospinal Microcirculation, CERVOS-NAVARRO, J., BETZ, E., EBHARDT, G., SERZT, R. and WULLENWEBER, R. editors, (*R*) 912
Adverse reactions, to anaesthetic agents, BROWN, D. T., *et al.*, (*C*) 911
Adverse Response to Intravenous Drugs, WATKIN, J., *et al.*, (*R*) 575
Agenesis of corpus callosum, and ketamine, RUSSEL, I. F. 983
Airway closure, and fluid filtration in the lung, SMITH-ERICHSEN, N., *et al.* 475
Airway pharmacology, TATTERSFIELD, A. E. 681
Airways resistance, measurement of, during anaesthesia, LEHANE, J. R., *et al.*, (*ARS*) 65P
Alcuronium, versus pancuronium. Non-depolarizing neuromuscular blockers and the eye: a study of intra-ocular pressure, GEORGE, R., *et al.* 789
Aldosterone plasma, effects of anaesthesia and surgery on, and renin activity in man, OYAMA, T., *et al.*, 747
Alphaxalone, plasma concentrations of, during continuous infusion of Althesin, SEAR, J. W., *et al.* 861
——, relative potencies of, thiopentone, ketamine, propanidid and diazepam. *A statistical study in man,* STELLA, L., *et al.* 119
Althesin, comparison with thiopentone. Morbidity of day-case gynaecological surgery, TOWEY, R. M., *et al.* 453
——, dose-related haemodynamic effects of continuous infusions of, in man, SEAR, J. W., *et al.* 867
——, in the Wolff–Parkinson–White syndrome, SUPPAN, P., (*C*) 69
——, plasma concentrations of alphaxalone during continuous infusion of, SEAR, J. W., *et al.* 861
——, the possible role of immunoglobulin IgD in the anaphylactoid response to, WATKINS, J., *et al.*, (*ARS*) 63P
——, to induce cerebral metabolic depression, relationship between cerebral blood flow changes and cortical extracellular fluid pH during, MCDOWALL, D. G., *et al.* 1109
Alveolar epithelial membrane permeability, a new method for measuring, in man, JONES, J. G., *et al.*, (*ARS*) 993P
Amethocaine, JOHNSON, R. W., (*C*) 911
——, survival following 1000 mg of, BALAMOUTSOS, N. G., *et al.*, (*C*) 469
Anaesthesia, or catalepsia for neurosurgery?, BARKER, J., (*E*) 269
Anaesthesia for Cardiac Surgery and Allied Procedures, BRANTHWAITE, M. A., (*R*) 387
Anaesthesia in Obstetrics. Maternal, Fetal and Neonatal Aspects, ALBRIGHT, G. A., (*R*) 78
Anaesthetic Accidents: Case Studies, GORDH T., et al., (*R*) 576
Anaesthetic pharmacology, CLARKE, R. S. J. and NORMAN, J., (*E*) 577
Anaesthetics, Resuscitation and Intensive Care, (5th edn), CAMPBELL, D., *et al.*, (*R*) 813
Analgesia, regional techniques of analgesia in labour, HOLLMÉN, A., 17S
——, systemic and inhalation, ROSEN, M. 11S
Analgesic Drugs, PARKHOUSE, J., *et al.*, (*R*) 813
Anaphylactoid reactions, to i.v. substances, WATKINS, J. 51
Angiography, bedside, of the lung by Swanz–Ganz catheter, *A case report,* DE LANGE, J. J. 259
Animal model, for the investigation of adverse responses to i.v. anaesthetic agents and their solvents, GLEN, J. B., *et al.* 819
Anti-arrhythmic drugs, MIRAKHUR, R. K. 671
Anticholinergic drugs, MIRAKHUR, R. K. 671
——, **premedicants,** studies of drugs given before anaesthesia. XVII, MIRAKHUR, R. K., *et al.* 339
——, premedication, GILMOUR, I. J., (*C*) 910
Arrhythmia, during oral surgery; fascicular blocks in the cardiac conducting system, ALEXANDER, J. P., *et al.* 149
Artificial Ventilation for Pulmonary Disease, BRANTHWAITE, M. A., (*R*) 811
Aspiration syndromes, in pregnancy, HEANEY, G. A. H., *et al.*, (*C*) 266
Atria, effect of ketamine on autonomic transmission in rat isolated, BYRNE, A. J., *et al.*, (*ARS*) 989P
Atropine, and glycopyrrolate with neostigmine for reversal of myoneural block, COZANITIS, D. A., *et al.*, (*ARS*) 569P
——, as a premedicant: comparison with glycopyrrolate, MCCUBBIN, T. D., *et al.* 885
——, hypersensitivity to, GIALA, M. M., (*C*) 265
——, reversal of hypercarbia during enflurane anaesthesia, WAHBA, W. M., *et al.* 221
Autoimmune disease, and autoimmunity, REES, A. J. 13
Autoimmunity, and autoimmune disease, REES, A. J. 13
Aware, on being, SPENCE, A. A., (*E*) 711
Awareness during surgery, a new approach, CORMACK, R. S. 1051

Blood–gas tensions, measurement of, by mass spectrometry—the "super Riley bubble", MAPLESON, W. W., *et al.*, (*ARS*) 990P
Book reviews

Cerebral blood flow, changes, relationship between, and cortical extracellular fluid pH during cerebral metabolic depression induced by Althesin, MCDOWALL, D. G., *et al.* 1109
——, differences in, and cortical electrical activity during hypotension induced by trimetaphan and nitroprusside in the cat, ISHIKAWA, T., *et al.*, (*ARS*) 566P
Cerebral perfusion pressure, effect of etomidate on, and intracranial pressure, MOSS, E., *et al.* 347
Cerebral Vascular Smooth Muscle and its Control (Ciba Foundation Symposium No. 56—new series), (*R*) 575
Chagas disease, DE CASTRO BARRETO, J. C., (*C*) 1189
Chlorazepate, for premedication, JEAL, D. E., (*C*) 263
Cholinesterase, from human plasma, *in vitro* interaction with propanidid and suxamethonium. *A kinetic study*, TAUSSIG, P. E., *et al.* 181
Cholinesterase activity, postoperative serum, following successful renal transplantation, RYAN, D. W. 881
Cimetidine, in the prevention of the pulmonary acid aspiration (Mendelson's) syndrome, DOBB, G., *et al.* 967
Citrate infusion, haemodynamic consequences of, in the anaesthetized dog: comparison between two citrate solutions and the influence of beta blockade, DROP, L. J., 513
Clinical Anesthesia. Procedures of the Massachusetts General Hospital, LEBOWITZ, P. W., (*R*) 387
Clinical Parental Nutrition; The Proceedings of a Parenteral Nutrition Workshop, BAXTER, D. M., *et al.* editors, (*R*) 77
Complement system, WILLIAMS, B. D. 7
Contamination, ambient air, in a dental outpatient theatre, THOMPSON, J. M., *et al.* 845
——, anaesthetic, in different types of hospital, HALSEY, M. J., *et al.*, (*ARS*) 991P
Controlled ventilation, fresh gas and ventilatory requirements during, with T-piece systems, CONWAY, C. M., (*ARS*) 993P
Coronary arterial flow, canine, effect on, of hypotension induced with sodium nitroprusside, VANCE, J. P., *et al.* 297
Coronary circulation, effect of nitrous oxide on, and the cardiovascular system, of the dog, THORBURN, J., *et al.* 937
——, effects of metoprolol on, and systemic haemodynamics and myocardial performance during halothane anaesthesia, BURT, G., *et al.* 829
Cortical electrical activity, differences in, and cerebral blood flow during hypotension induced by trimetaphan and nitroprusside in the cat, ISHIKAWA, T., *et al.*, (*ARS*) 566P

Cortical extracellular fluid pH, and cerebral blood flow changes during cerebral metabolic depression induced by althesin, McDowall, D. G., *et al.* 1109
Craniectomy, in infancy, hypotensive anaesthesia for, Diaz, J. H., *et al.* 233
Cremophor, as a solvent, in the prevention of diazepam-induced thrombophlebitis, Mattila, M. A. K., *et al.* 891
Cremophor–containing anaesthetics, and plasma viscosity, Gramstad, L., *et al.* 1175
Current Topics in Anaesthesia, Series I. Intravenous Anaesthetic Agents. Dundee, J. W., (*R*) 1095
——, and sodium nitroprusside, metabolism in the dog, Vesey, C. J., *et al.* 89
Cyanide, and sodium nitroprusside, some physiological and metabolic effects in the dog, Simpson, P. J., *et al.* 81
Cyclopropane, and Caesarean section, Kristoffersen, M. B. 227
——, mutagenicity of inhalation anaesthetics: trichloroethylene, divinyl ether and nitrous oxide, Baden, J. M., *et al.* 417

Dantrolene, control of increased carbon dioxide production in two patients with malignant hyperpyrexia, Liebenschütz, F., *et al.* 899
——, inhibition of suxamethonium-induced contracture of muscle treated with caffeine, a screening test for the malignant hyperpyrexia phenotype, Halsall, P. J., *et al.* 753
Day-case surgery, morbidity in. *A comparison of two anaesthetic techniques,* Hunt, T. M., *et al.* 785
Demand analgesia, for postoperative pain, Hull, C. J. *et al.*, (*ARS*) 570P
Dental anaesthesia, McDonald, D., (*C*) 265
Diabetes, the management of during surgery, Alberti, K. G. M. M., *et al.* 693
Diazepam, and droperidol as i.v. premedicants, Herr, G. P., *et al.* 537
——, blood concentrations following parenteral administration of RO 03-7355, a new benzodiazepine prodrug, Bennett, N. R., *et al.*, (*ARS*) 64P
——, comparison of the action of, and lorazepam, Dundee, J. W., *et al.* 439
——, comparison with flunitrazepam as adjuncts to general anaesthesia in preventing arousal following surgical stimuli, Mattila, M. A. K., *et al.* 329
——, comparison with flunitrazepam for oral premedication in older children, Richardson, F. J., *et al.* 313
——, effect at the neuromuscular junction. *A clinical study,* Bradshaw, E. G., *et al.* 955
——, i.m., comparison with pethidine and flunitrazepam as premedicants in children undergoing otolaryngological surgery, Lindgren, L., *et al.* 321
——, in cardiac surgery, Barankay, A., (*C*) 74
——, -induced thrombophlebitis, prevention of, with cremophor as a solvent, Mattila, M. A. K., *et al.* 891
——, relative potencies of, thiopentone, ketamine, propanidid and alphaxalone. *A statistical study in man,* Stella, L., *et al.* 119
Diet, the influence on the susceptibility of *Xenopus laevis* tadpoles to thiopentone and a membrane probe, Haw, M. E., (*ARS*) 992P
Dioxychlorane, a new halogenated volatile anaesthetic agent, assessment of the anaesthetic and metabolic activities, Jaramillo, J., *et al.* 1041
Divinyl ether, mutagenicity of inhalation anaesthetics: trichloroethylene, nitrous oxide and cyclopropane, Baden, J. M., *et al.* 417
Dopamine, attenuation of the diuretic effect of, by droperiodol in man and dogs, Goto, F., *et al.* 107
——, depression of hypoxic pulmonary vasoconstriction in the dog by, and isoprenaline, Marin, J. L. B., *et al.* 303
——, effects of, on the ERPF in dogs—interaction with droperidol, Bradshaw, E. G., *et al.*, (*ARS*) 566P
Droperidol, and diazepam, as i.v. premedicants, Herr, G. P., *et al.* 537
——, attenuation of the diuretic effect of dopamine by, in man and dogs, Goto, F., *et al.* 107
——, has it an atropinic effect?, Parmentier, P., *et al.* 775
——, interaction with the effects of dopamine on the ERPF in dogs, Bradshaw, E. G., *et al.*, (*ARS*) 566P
Drug metabolism, Tucker, G. T., 603
Drug-receptor reactions, Norman, J. 595
Drugs in Anaesthetic Practice (5th edn), Vickers, M. D., *et al.*, (*R*) 812
Drugs, placental transfer and fetal uptake of, Finster, M., *et al.* 25S

Elective section, extradural analgesia or general anaesthesia, Selwyn Crawford, J., (*C*), 810
Embolism, systemic air, following induction of artificial pneumothorax under anaesthesia, with successful management, Khalil, S. N., *et al.* 461
Endobronchial cuff indicator, for use in thoracic surgery, Jenkins, A. V. 905
Endotracheal intubation, in Still's disease, Greaves, J. D., (*C*) 75
Endotracheal tubes, small. *Ventilator and intratracheal pressures during controlled ventilation,* Stenqvist, O., *et al.* 375
Enflurane, anaesthesia, atropine reversal of hypercarbia during, Wahba, W. M., *et al.* 221
——, anaesthesia, comparison of respiratory changes during, and halothane anaesthesia, Royston, D., *et al.*, (*ARS*) 567P
——, anaesthesia, influence of airway resistance and ventilatory pattern on Pa_{CO_2} during, Wahba, W. M. 123
——, and halothane, effect on specific airways conductance in man, Lehane, J. R., *et al.*, (*ARS*) 992P
——, a prospective study of liver enzyme and other changes following repeat administration of, and halothane, Fee, J. P. H., *et al.* 1133
——, Black, G. W. 627
——, comparison with halothane. Morbidity after day-case gynaecological surgery, Stanford, B. J., *et al.* 1143
——, effects of and surgery on endocrine function in man, Oyama, T., *et al.* 141
——, in a closed circle absorber system; vaporizer inside the circle, Jones, P. I. E., *et al.*, (*ARS*) 994P
Epidural Analgesia, Bromage, P. R., (*R*) 811
Ergometrine, or oxytocin? Blood loss and side-effects at spontaneous vertex delivery, Moir, D. D., *et al.* 113
Ethamsylate, a double-blind trial of: operative blood loss and the frequency of haemorrhage associated with adenotonsillectomy in children, Arora, Y. R., *et al.*, 557
Ether, effect of repeated administration of subanaesthetic concentrations, and halothane on the rat, Al-Abrak, M. H., *et al.*, (*C*) 385
——, anaesthesia, effect of premedication on, Carlos, R., *et al.* 1159
Etomidate, and cerebral blood flow, van Aken, J., et al., (*C*) 908
——, cardiorespiratory changes following induction of anaesthesia with, in patients with cardiac disease, Colvin, M. P., *et al.* 551

Etomidate, comparison, in combination with fentanyl or diazepam, with thiopentone as an induction agent for general anaesthesia, KORTTILA, K., *et al.* 1151
——, effect of preanaesthetic medication on, ZACHARIAS, M., *et al.* 127
——, effect on intracranial pressure and cerebral perfusion pressure, MOSS, E., *et al.* 347
——, evaluation of, HENDRY, J. G. B., *et al.*, (*C*) 470
——, for induction of anaesthesia at Caesarean section: comparison with thiopentone, DOWNING, J. W., *et al.* 135
——, venous sequelae following, ZACHARIAS, M., *et al.* 779
Extracorporeal circulation, performance of a shell–type heat exchanger in, FLOWER, K. A., *et al.* 199
Extradural anaesthesia, effect of maternal position on fetal heart rate during, HUOVINEN, K., *et al.* 767
Extradural analgesia, for Caesarean section, BROWNRIDGE, P., (*C*) 1092
——, for Caesarean section, MOIR, D. D., (*E*) 79
——, for Caesarean section: comparison with general anaesthesia, DOWNING, J. W., *et al.* 367
——, recordings of, and an anatomical explanation for, false positive loss of resistance during lumbar, SHARROCK, N. E. 253
——, revisited, BROMAGE, P. R., (*C*) 384
——, test-dose in, REES, G. A. D., *et al.*, (*C*) 70
——, test doses in, SCOTT, D. B., (*C*) 808
——, test doses in, SCOTT, D. B., (*C*) 910
Extradural block, in labour, comparative study of various local anaesthetic solutions in, LITTLEWOOD, D. G., *et al.* 47S
Extradural injection pressures, lumbar, in pregnant women, HUSEMEYER, R. P., *et al.*, (*ARS*) 567P
Extradural space, spread of solutions in, BURN, J. M. B., *et al.*, (*C*) 76

Fazadinium, pharmacokinetics of, in patients with renal failure, DUVALDESTIN, P., *et al.* 943
Fentanyl, acute effect of, on haemodynamics and myocardial carbohydrate utilization and phosphate release during ischaemia, VAN DER VUSSE, G. J., *et al.* 927
——, effect of high-dose, on renal function in the anaesthetized dog, HUNTER, J. M., *et al.*, (*ARS*) 996P
——, or diazepam in combination with etomidate, comparison with thiopentone as an induction agent for general anaesthetics, KORTILLA, K., *et al.* 1151
——, pharmacokinetics of, as a possible explanation for recurrence of respiratory depression, STOECKEL, H., *et al.* 741
——, plasma concentrations and clinical observations during and after operation, MCQUAY, H. J., *et al.* 543
Fetal uptake, and placental transfer, of drugs, FINSTER, M., *et al.* 25S
Fibro-osseous dysplasia, congenital, of jaws ("Hippopotamus face"). *An anaesthetic problem,* KUNDU, J. P., *et al.* 465
Fitness to drive, after anaesthesia, BASKETT, P. J. F., *et al.*, (*C*) 810
Fluid filtration, and airway closure, in the lung, SMITH-ERICHSEN, N., *et al.* 475
Flunitrazepam, comparison with diazepam as adjuncts to general anaesthesia in preventing arousal following surgical stimuli, MATTILA, M. A. K., *et al.* 329
——, comparison with diazepam for oral premedication in older children, RICHARDSON, F. J., *et al.* 313
——, i.m., comparison with pethidine and diazepam as premedicants in children undergoing otolaryngological surgery, LINDGREN, L., *et al.* 321

Gas flowmeters, accuracy of anaesthetic, HODGE, E. A., (*C*) 907
Glottic obstruction, valvular, in a baby, GIALA, M. M., *et al.*, (*C*) 263
Glucose tolerance, during surgery and extradural anaesthesia, KEHLET, M., *et al.*, (*C*) 76
Glycopyrrolate, and atropine with neostigmine for reversal of myoneural block, COZANITIS, D. A., *et al.* (*ARS*) 569P
——, as a premedicant: comparison with atropine, MCCUBBIN, T. D., *et al.* 885

Haemodynamics, acute effect of fentanyl on, and myocardial carbohydrate utilization and phosphate release during ischaemia, VAN DER VUSSE, G. J., *et al.* 927
——, of cardiac tamponade during various modes of ventilation, MÖLLER, C. T., *et al.* 409
Haemoptysis, after pulmonary artery catheterization, SMILER, B. G., (*C*) 1091
——, following insertion of a Swan–Ganz catheter, KRANTZ, E. M., *et al.* 457
Haemothorax, effect on pulmonary artery wedge pressure. *A case report,* KENNY, G. N. C. 165
Halothane anaesthesia, comparison of respiratory changes during, and enflurane anaesthesia, ROYSTON, D., *et al.*, (*ARS*) 567P
——, and enflurane, effect on specific airways conductance in man, LEHANE, J. R., *et al.*, (*ARS*) 992P
——, a prospective study of liver enzyme and other changes following repeat administration of, and enflurane, FEE, J. P. H., *et al.* 1133
——, brain water and electrolyte distribution during the inhalation of, SCHETTINI, A., *et al.* 1117
——, breath-by-breath monitoring during anaesthesia. *A study in children,* MORRIS, P., *et al.* 979
——, comparison with enflurane. Morbidity after day-case gynaecological surgery, STANFORD, B. J., *et al.* 1143
——, does not inhibit human neutrophil function *in vitro,* NUNN, J. F., *et al.* 1101
——, effect of repeated administration of subanaesthetic concentrations of and ether, on the rat, AL-ABRAK, M. H., *et al.*, (*C*) 385
——, failure of clinical concentrations to block adenosine diphosphate-induced platelet aggregation *in vitro,* BJORAKER, D. G. 187
——, influence on canine coronary blood flow responses to hypoxaemia, VANCE, J. P. 193
——, vapour, skin sensitivity to, BODMAN, R., (*C*) 1092
Halothane hepatitis, revisited in women undergoing treatment of carcinoma of the cervix, WARK, H. J., *et al.*, 763
Harrington rod, spinal fusion, JENNINGS, F., *et al.*, (*C*) 1091
Hazards, fire and explosion, in operating theatres: a reply and new evidence, ROBINSON, J. S. *et al.*, (*C*) 908
Helium pressure, effects on acetylcholine release, LITTLE, H. J. *et al.*, (*ARS*) 62P
Hepatic blood flow, effect of hypercarbia on, and oxygen consumption in the greyhound, HUGHES, R. L., *et al.* 289
Hepatitis, following thiopentone. *A case report,* HASSELSTRØM, L., *et al.* 801
——, viral, STRUNIN, L., (*E*) 913
Hepatocyte, the isolated rat, cytotoxicity of i.v. anaesthetic agents on, SEAR, J. W., *etal.* 733
Hexafluorenium, prevention of suxamethonium-induced changes in serum potassium concentration by. *Is their combined use justified?* RADNAY, P. A., *et al.* 447

^{3}H-Fentanyl, estimation of binding to plasma proteins, HARGRAVE, S. A., (*ARS*) 569P
Humidification, in anaesthesia, HAYES, B., (*E*) 389
——, in anaesthesia, STIRT, J. A., *et al.*, (*C*) 1094
Hypercarbia, atropine reversal of, during enflurane anaesthesia, WAHBA, W. M., *et al.* 221
——, effect of, on hepatic blood flow and oxygen consumption in the greyhound, HUGHES, R. L., *et al.* 289
Hyperpyrexia, a screening test for the malignant phenotype using suxamethonium-induced contracture of muscle treated with caffeine, and its inhibition by dantrolene, HALSALL, P. J., *et al.* 753
Hyperpyrexia, malignant, identification of susceptibility to, in swine, OKUMURA, F., *et al.* 171
——, malignant, increased carbon dioxide production in two patients with, and its control by dantrolene, LIEBENSCHÜTZ, F., *et al.* 899
——, malignant, retrospective analysis of anaesthetics received by patients before susceptibility to malignant hyperpyrexia was recognized, HALSALL, P. J., *et al.* 949
——, predicting malignant, WILSON, M. E., *et al.*, (*ARS*) 66P
Hypocapnia, effect of acute, on some aspects of renal function in anaesthetized dogs, HUNTER, J. M., *et al.* 725
——, graded, response of mean and phasic coronary arterial blood flow, in dogs, VANCE, J. P., *et al.* 523
Hypotension, effect of, induced with sodium nitroprusside on canine coronary arterial flow, VANCE, J. P., *et al.* 297
——, labetalol in controlled. *Administration of labetalol when adequate hypotension is difficult to achieve*, COPE, D. H. P., *et al.* 359
——, metabolic effects of induced, with trimetaphan and sodium nitroprusside, WILDSMITH, J. A. W. *et al.* 875
Hypothermia, during neurosurgery, metallized plastic sheeting in the prevention of, RADFORD, P., *et al.* 237
Hypovolaemic haemodilution, regional blood flow in, and normovolaemic haemodilution. *An experimental study*, ROSBERG, B., *et al.* 423
Hypoxaemia, canine coronary blood flow responses to: the influence of halothane, VANCE, J. P., *et al.* 193
Hypoxic pulmonary vasoconstrictor mechanism, preservation of during methoxyflurane anaesthesia in the dog, MARIN, J. L. B., *et al.* 99

I.c.p., increases, with 50% nitrous oxide in nitrogen in severe head injuries during controlled ventilation, MOSS, E., *et al.* 757
Immune status, effects of anaesthesia and surgery on, WALTON, B. 37
Immune system,—some basic concepts, OWEN, J. J. T. 3
Immunoglobulin IgD, the possible role in the anaphylactoid response to Althesin, WATKINS, J., *et al.*, (*ARS*) 63P
Immunological reactions, to blood and blood products, HILGARD, P. 45
Immunological therapy, recent advances: plasma-exchange and immunosuppression, PINCHING, A. J. 21
Immunology, in anaesthesia and intensive care, WHITWAM, J. G., *et al.*, (*E*) 1
Immunosuppression, in immunological therapy, PINCHING, A. J. 21
Infant weight, anaesthesia and, SCANLON, J. W., (*C*) 73
Inotropic agents, SCALLAN, M. J. M., *et al.* 649
Intensive care, ethical problems in, BISHOP, V. A., (*C*) 383
Interpreting the Electrocardiogram, FLEMING, J. S., (*R*) 813
Intracranial pressure, effect of etomidate on, and cerebral perfusion pressure, MOSS, E., *et al.* 347
Introduction to the Practice of Anaesthesia, LICHTIGER, M., *et al.* editors, (*R*) 388
Intubation, difficult, HAUSDOERFER, J., (*C*) 75
Ischaemia, acute effect of fentanyl on haemodynamics and myocardial carbohydrate utilization and phosphate release during, VAN DER VUSSE, G. J., *et al.* 927
——, acute, of the bowel, influence of anaesthetic agents on the survival of rats following, BAVISTER, P. H., *et al.* 921
Isolated Heart–Lung Preparation, HUISMAN, P. M., *et al.*, (*R*) 268
Isoprenaline, depression of hypoxic pulmonary vasoconstriction in the dog, by, and dopamine, MARIN, J. L. B., *et al.* 303
I.v. agents, adverse reactions to, WATKINS, J., *et al.*, (*C*) 469
I.v. Induction Agents, *in vitro* assessment of hepatic cytotoxicity of, SEAR, J. W., *et al.*, (*ARS*) 563P

Jugular vein cannulation, internal, carotid artery palpation during, and subsequent ventricular fibrillation, SPRIGGE, J. S., *et al.*, (*C*) 807

Ketamine, and agenesis of the corpus callosum, RUSSEL, I. F. 983
——, block of bronchospasm in experimental canine asthma, HIRSHMAN, C. A., *et al.* 713
——, effect on autonomic transmission in rat isolated atria, BYRNE, A. J., *et al.*, (*ARS*) 989P
——, effect on transmission in sympathetic ganglia, MAHMOODI, U., *et al.*, (*ARS*) 989P
——, effects on the pregnant uterus, OATS, J. N., *et al.* 1163
——, infusions: pharmacokinetics and clinical effects, IDVALL, J., 1167
——, inhibition of neuronal and extraneuronal uptake of noradrenaline in the isolated perfused rat heart, SALT, P. J., *et al.* 835
——, inhibition of neuronal and extraneuronal uptake of noradrenaline by, in the isolated perfused rat heart, SALT, P. J., *et al.*, (*ARS*) 563P.
——, rectal, in paediatric anaesthesia, SAINT-MAURICE, C., *et al.*, (*C*) 573
——, relative potencies of, thiopentone, propanidid, alphaxalone and diazepam. *A statistical study in man*, STELLA, L., *et al.* 119
Ketocaine, skin penetration of, (*C*) 1189

Labetalol, in controlled hypotension. *Administration of labetalol when adequate hypotension is difficult to achieve*, COPE, D. H. P., *et al.* 359
Laminar flow enclosure, a possible risk to the patient, EDBROOKE, D. L., *et al.* 857
Lecture Notes on Anaesthetics, LUNN, J. N., (*R*) 1095
Lignocaine, cytotoxic effects of, and procaine and bupivacaine, STURROCK, J. E., *et al.* 273
——, effect of i.v. administration on sensory units in the tooth of the cat, and tetrodotoxin, HAEGERSTAM, G. 487
Lithium, anaesthesia and ECT, VLISSIDES, D. N., *et al.*, (*C*) 574
Liver dysfunction, after repeated anaesthesia, STRUNIN, L., (*E*) 1097
—— **enzyme concentrations,** methodology of a prospective study of changes in, following repeat anaesthetics, MCILROY, P. D. A. 1125
——, and other changes following repeat administration of halothane and enflurane, a prospective study, FEE, J. P. M., *et al.* 1133

Liver function, organization of a study following repeat anaesthetics, FEE, J. P. H., *et al.*, (*ARS*) 67P
Local anaesthetics, metabolism in the fetus, newborn and adults, DIFAZIO, C. 29S
Local anaesthetic solutions, comparative study of, in extradural block in labour, LITTLEWOOD, D. G., *et al.* 47S
Lorazepam, a study of plasma concentrations of, in mother and neonate, MCBRIDE, R. J., *et al.* 971
——, comparison of the action of, and diazepam, DUNDEE, J. W., *et al.* 439
Lower oesophageal sphincter, and regurgitation, BROCK-UTNE, J. G., *et al.*, (*C*) 385
Lung compliance, effect of an acute increase in cerebrospinal fluid pressure on, in the rabbit, DAVIDSON, J. T., *et al.* 915

("MacPuf"), initial clinical evaluation of a holistic model of human respiration in patients ventilated after operation, HINDS, C. J., *et al.*, (*ARS*) 63P
Mammary carcinoma, and nitrous oxide, DEEN, L., *et al.*, (*C*) 383
Mandatory minute volume ventilation (MMV), use in the perioperative management of a patient with myasthenia, HIGGS, B. D., *et al.* 1181
Mapleson A and D anaesthetic systems, comparisons of anti-pollution modifications of, ANDERSEN, P. K., *et al.* 797
Mass spectrometry, to measure blood–gas tensions—the "super Riley bubble", MAPLESON, W. W., *et al.*, (*ARS*) 990P
Maternity services, and the anaesthetist, HUNTER, A. R., *et al.*, (*E*) 169
Measuring agreement, between anaesthetists, WILSON, M. E., *et al.*, (*ARS*) 61P
Mechanical Misadventures in Anaesthesia, WYANT, G. M. editor, (*R*) 813
Mechanism of action, of anaesthetic agents: a model simulating enzyme catalysis, ADEY, G. D., *et al.*, (*ARS*) 565P
Medazepam, plasma concentrations of, and its metabolites after oral administration, HAILEY, D. M. 493
Medical Acid–Base Balance. The Basic Principles, GARDNER, M. L. G., (*R*) 1096
Mepivacaine, pharmacokinetic and clinical pharmacological studies with, and prilocaine, ARTHUR, G. R., *et al.* 481
Meptazinol, comparison of the respiratory effects, with pentazocaine and morphine, JORDAN, C., *et al.* 497
——, (Wyeth), respiratory effects of, JORDAN, C., *et al.*, (*ARS*) 61P
Methoxyflurane anaesthesia, preservation of the hypoxic pulmonary vasoconstrictor mechanism during, MARIN, J. L. B., *et al.* 99
Methoxyflurane vaporizer, calibration of, for trichloroethylene, ROSENBLATT, R. M., *et al.*, (*C*) 264
Metocurine, comparative haemodynamic effects of, and tubocurarine, in the dog, ANTONIO, R. P., *et al.* 1007
Metoprolol, effects on systemic haemodynamics, myocardial performance and the coronary circulation during halothane anaesthesia, BURT, G., *et al.* 829
MGA 200 mass spectrometer, a modification to enable measurement of anaesthetic gas mixtures, DAVIS, W. O. M., *et al.* 987
——, the development of, for clinical use in anaesthesia, DAVIS, W. O. M., *et al.*, (*ARS*) 990P
Microcomputer, for monitoring respiratory function, KENNY, G. N. C., *et al.*, (*ARS*) 996P
Minaxolone, a new steroid i.v. anaesthetic agent, early clinical evaluation, AVELING, W., *et al.*, (*ARS*) 564P
Minaxolone, a new water-soluble steroid anaesthetic, DAVIS, B., *et al.*, (*ARS*) 564P
——, the systemic haemodynamic effects of: a comparison with other anaesthetics in the dog, TWISSELL, D. J., *et al.*, (*ARS*) 995P
Molecular sites differentiation of, for anaesthesia and pressures, WARDLEY-SMITH, B., *et al.*, (*ARS*) 991P
Molecular theories, of general anaesthesia, recent, WARDLEY-SMITH, B., *et al.* 619
Morphine, accuracy in administration, KNIGHT, J., (*C*) 909
——, cardiovascular response to the i.v. administration of, in critically ill patients undergoing IPPV, ROUBY, J. J., *et al.* 1071
Mutagenicity, of inhalation anaesthetics: trichloroethylene, divinyl ether, nitrous oxide and cyclopropane, BADEN, J. M., *et al.* 417
Myocardial carbohydrate utilization, acute effect of fentanyl on, and haemodynamics and phosphate release during ischaemia, VAN DER VUSSE, G. J., *et al.* 927
Myocardial performance, effects of metoprolol on, and systemic haemodynamics and the coronary circulation during halothane anaesthesia, BURT, G., et al. 829

Naloxone, and acid–base balance in man, KHANNA, V. K., (*C*) 573
——, effect on respiratory changes after diazepam, JORDAN, C., *et al.*, (*ARS*) 570P
Nasogastric tubes, insertion of, VAN DER WEYDEN, C., (*C*) 73
Nefopam, in postoperative pain, PHILLIPS, G., *et al.* 961
Neomycin, acute and subchronic neuromuscular blocking characteristics of: a comparison with streptomycin, LEE, C., *et al.* 431
Neostigmine, neuromuscular blockade by, HUGHES, R., *et al.*, (*ARS*) 568P
——, use of, after a snake bite, BROPHY, T., *et al.*, (*C*) 264
——, with atropine and glycopyrrolate for reversal of myoneural block, COZANITIS, D. A., *et al.*, (*ARS*) 569P
Neurobehavioural effects, of obstetric analgesia, OSTHEIMER, G. W. 35S
Neuromuscular block, produced by antibiotics, depression of transmitter release and postjunctional sensitivity during, SINGH, Y. N., *et al.* 1027
Neuromuscular blockers, non-depolarizing, and the eye: a study of intra-ocular pressure. Pancuronium versus alcuronium, GEORGE, R., *et al.* 789
Neuromuscular blocking agent, steroidal, prolongation by bile salts of the duration of action, VONK, R. J., *et al.* 719
Neuromuscular blocking drugs, NORMAN, J., (*E*) 471
Neuromuscular junction, presynaptic effect of i.v. anaesthetic agents at, TORDA, T. A., *et al.* 353
Neurosurgery, anaesthesia or catalepsia for ?, BARKER, J., (*E*) 269
Neutrophil function, human, halothane does not inhibit, NUNN, J. H., *et al.* 1101
New i.v. anaesthetics, DUNDEE, J. W. 641
Nitroprusside and Other Short Acting Hypotensive Agents. International Anesthesiology Clinics, **16**(2), IVANKOVITCH, A. D., (*R*) 1095
Nitrous oxide, and mammary carcinoma, DEEN, L., *et al.*, (*C*) 383
——, blood concentrations in theatre personnel, KRAPEZ, J. R., *et al.*, (*ARS*) 64P
——, effect of the chronic administration of 0.5% to gravid rats, VIEIRA, E. 283
——, effect on B12-requiring enzymes, MINTY, B., *et al.*, (*ARS*) 65P

Nitrous oxide, effect on the cardiovascular system and coronary circulation of the dog, THORBURN, J., *et al.* 937
——, mutagenicity of inhalation anaesthetics: trichloroethylene, divinyl ether and cyclopropane, BADEN, J. M., *et al.* 417
——, threshold concentrations of, affecting psychomotor performance, ALLISON, R. H., *et al.* 177
Noradrenaline, inhibition of neuronal and extraneuronal uptake by ketamine in the isolated perfused rat heart, SALT, P. J., *et al.*, (*ARS*) 563P
——, inhibition of neuronal and extraneuronal uptake of, by ketamine in the isolated perfused rat heart, SALT, P. J., *et al.* 835
——, inhibition of neuronal uptake by pancuronium in the isolated perfused rat heart, CONWAY, C. M., *et al.*, (*ARS*) 66P
Normovolaemic haemodilution, regional blood flow in, and hypovolaemic haemodilution. *An experimental study*, ROSBERG, B., *et al.* 423

Obstetric analgesia, neurobehavioural effects of, OSTHEIMER, G. W. 35S
Obstetric extradural analgesia, the teaching of, *a personal view*, DOUGHTY, A. 53S
Obstetric regional analgesia, effect on the change in respiratory frequency in the newborn, BRATTEBY, L.-E., *et al.* 41S
Oral premedication, comparison of flunitrazepam and diazepam for, in older children, RICHARDSON, F. J., *et al.* 313
Otolaryngological surgery, comparison of i.m. pethidine, diazepam and flunitrazepam in children undergoing, LINDGREN, L., *et al.* 321
Oxygen consumption, effect of hypercarbia on, and hepatic blood flow in the greyhound, HUGHES, R. L., *et al.* 289
Oxygen, 100%, inadvertent administration of, during anaesthesia, DODD, K. W., (*C*) 573
——, inadvertent administration of, during anaesthesia, LARARD, D. G., *et al.*, (*C*) 911
Oxytocin, or ergometrine? Blood loss and side-effects at spontaneous vertex delivery, MOIR, D. D., *et al.* 113

Paediatric ventilator, with a fluidic control system, MANSON, H. J., *et al.* 249
Pain control in obstetrics, ABOULEISH, E., (*R*) 77
Pain. Its Nature, Analysis and Treatment, BOND M. R. (*R*) 814
Pain Relief in Labour (3rd edn), MOIR, D. D., (*R*) 575
Pancuronium, effects of ageing on the pharmacokinetics of, MCLEOD K., *et al.* 435
——, inhibition of neuronal uptake of noradrenaline in the isolated perfused rat heart by, CONWAY, C. M., *et al.*, (*ARS*) 66P
——, versus alcuronium. Non-depolarizing neuromuscular blockers and the eye: a study of intra-ocular pressure, GEORGE R., *et al.* 789
Parturition pain, peripheral mechanisms and pathways of, BONICA J. J. 3S
P_{CO_2}, a new method for measuring during anaesthesia, FRANKEL, D. Z. N., *et al.* 215
Pediatric Trauma, TOULOUKIAN, R. J. editor, (*R*) 814
Pentazocine, comparison of the respiratory effects, with meptazinol and morphine, JORDAN, C., *et al.* 497
Pethidine, i.m., comparison with diazepam and flunitrazepam as premedicants in children undergoing otolaryngological surgery, LINDGREN, L., *et al.* 321
Pharmacodynamics, and pharmacokinetics. HULL, C. J. 579
Pharmacokinetics, and pharmacodynamics, HULL, C. J. 579
Phosphate release, acute effect of fentanyl on, and haemodynamics and myocardial carbohydrate utilization during ischaemia, VAN DER VUSSE, G. J., *et al.* 927
Physiology of Breathing: A Textbook for Medical Students, BOUHUYS, A., (*R*) 77
Plasma-exchange, in immunological therapy, PINCHING, A. J. 21
Plasma glucose, concentration in children undergoing outpatient anaesthesia with preoperative starvation, GRAHAM, I. F. M. 161
Plasma viscosity, and cremophor-containing anaesthetics, GRAMSTAD, L., *et al.* 1175
Platelets, failure of clinical concentrations of halothane to block adenosine diphosphate-induced aggregation *in vitro*, BJORAKER, D. G. 187
Pneumothorax, artificial, systemic air embolism following induction of under anaesthesia, with successful management, KHALIL, S. N., *et al.* 461
Porphyria, and anaesthetics, PARIKH, R. K., *et al.*, (*C*) 809
Premedication, in children undergoing day-care surgery, BOOKER, P. D., *et al.* 1083
Prilocaine, pharmacokinetic and clinical pharmacological studies with, and mepivacaine, ARTHUR, G. R., *et al.* 481
Principles and Practice of Obstetric Anaesthesia, CRAWFORD, J. S., (*R*) 388
Procaine, cytotoxic effects of, and lignocaine and bupivacaine, STURROCK, J. E., *et al.* 273
Programmable calculator: a program for use in the intensive care unit, KENNY, G. N. C. 793
Propanidid, interaction with human plasma cholinesterase *in vitro*, TAUSSIG, P. E., *et al.*, (*ARS*) 62P
——, *in vitro* interaction of, and suxamethonium with pooled plasma cholinesterase. *A kinetic study*, TAUSSIG, P. E., *et al.* 181
——, relative potencies of, thiopentone, ketamine, alphaxalone and diazepam. *A statistical study in man*, STELLA, L., *et al.* 119
Psychomotor performance, affected by threshold concentrations of nitrous oxide, ALLISON, R. H., *et al.* 177
Pulmonary acid aspiration (Mendelson's) syndrome, cimetidine in the prevention of, DOBB, G., *et al* 967
Pulmonary artery catheterization, haemoptysis after, SMILER, B. G., (*C*) 1091
Pulmonary mechanics, during general anaesthesia, GOLD, M. I., (*C*) 809
Pulmonary mechanics, during general anaesthesia. *The influence of mechanical irritation on the airway*, DOHI, S. 205
Pulmonary Pathophysiology—The Essentials, WEST, J. B., (*R*) 387

Radial artery, before cannulation of, HUSUM, B., *et al.*, (*C*) 71
Regional Anesthesia: Advances and Selected Topics. International Anesthesiology Clinics, Vol. 16, No. 4, STANTON-HICKS, M. d'A. editor, (*R*) 912
Regurgitation, and aspiration, DENISON DAVIES, D., (*C*) 807
——, during pelvic laparoscopy, DUFFY, B. L. 1089
Relief of Intractable Pain, Volume I, Monographs in Anaesthesiology (2nd edn), SWERDLOW, M., (*R*) 268
Renal failure, pharmacokinetics of fazadinium in patients with, DUVALDESTIN, P., *et al.*, 943
Renal function, effects of high-dose fentanyl on, in the anaesthetized dog, HUNTER, J. M., *et al.*, (*ARS*) 996P

Renal transplantation, postoperative serum cholinesterase activity following successful, RYAN, D. W., 881
Renin, activity in man, effect of anaesthesia and surgery on plasma aldosterone concentration and, OYAMA, T., *et al.* 747
Repeated anaesthesia, liver dysfunction after, STRUNIN, L., (*E*) 1097
Research, in the eighties, DUNDEE, J. W., (*E*) 1006
Respiratory effects, of meptazinol (Wyeth): a new potent analgesic, JORDAN, C., *et al.*, (*ARS*) 61P
Respiratory frequency, in the newborn, effects of obstetric regional analgesia on, BRATTEBY, L.-E., 41S
Respiratory function, monitoring, with a microcomputer, KENNY, G. N. C., *et al.*, (*ARS*) 996P
Respiratory muscle fatigue, inability to maintain ventilation against large respiratory threshold loads: muscle fatigue or progressive fatigue or co-ordination? LAWLER, P., *et al.*, (*ARS*) 994P
Resuscitation, simple, of the neonate, SINGH, C. U., (*C*) 808
Rib cage, measurement of the relative contributions of, and abdominal/diaphragm, to tidal breathing in man, FAITHFULL, D., *et al.* 391
Rib cage movement, during halothane anaesthesia in man, JONES, J. G., *et al.* 399
RO 03-7355, a new benzodiazepine prodrug, blood concentrations of diazepam following parenteral administration of, BENNETT, N. R., *et al.*, (*ARS*) 64P

Sir Robert Macintosh's Lumbar Puncture and Spinal Analgesia—Intradural and Extradural (4th edn), ALFRED LEE, J., *et al.*, (*R*) 576
Skin sensitivity, to halothane vapour, BODMAN, R., (*C*) 1092
Sleep Apnea Syndromes, GUILLEMINAULT, *et al.*, (*R*) 814
Snake bite, treatment of, BROPHY, T., (*C*) 909
Sodium nitroprusside, and cyanide, metabolism in the dog, VESEY, C. J. 89
——, and cyanide, some physiological and metabolic effects in the dog, SIMPSON, P. J., *et al.* 81
——, metabolic effects of induced hypotension with trimetaphan and, WILDSMITH, J. A. W., *et al.* 875
Spinal analgesia, experience with, in a British obstetric unit, CRAWFORD, J. S. 531
Streptomycin, acute and subchronic neuromuscular blocking characteristics of: a comparison with neomycin, LEE, C., *et al.* 431
Suxamethonium, and propanidid, *in vitro* interaction with pooled human plasma cholinesterase. *A kinetic study*, TAUSSIG, P. E., *et al.* 181
——, -induced contracture of muscle treated with caffeine, a screening test for the malignant hyperpyrexia phenotype, and its inhibition by dantrolene, HALSALL, P. J., *et al.* 753
——, infusion rate and observed fasciculations. *A dose–response study*, FEINGOLD, A. 241
——, interaction with human plasma cholinesterase *in vitro*, TAUSSIG, P. E., *et al.*, (*ARS*) 63P
——, prevention of suxamethonium-induced changes in serum potassium concentration by hexafluorenium. *Is their combined use justified?*, RADNAY, P. A., *et al.* 447
Swan–Ganz catheter, haemoptysis following insertion of, KRANTZ, E. M., *et al.* 457
Symbols, for compartmental models, HULL, C. J., (*E*) 815
Sympathetic ganglia, transmission in, effect of ketamine on, MAHMOODI, V., *et al.*, (*ARS*) 989P
Synthane, metabolism of: comparison with *in vivo* and *in vitro* defluorination of other halogenated hydrocarbon anaesthetics, MAZZE, R. I., *et al.* 839
Systemic haemodynamics, effects of metoprolol on, and myocardial performance and the coronary circulation during halothane anaesthesia, BURT, G., *et al.* 829

Tachycardia, dose-related, induced by pancuronium during balanced anaesthesia with or without droperidol, PARMENTIER, P., *et al.* 157
Tetrodotoxin, effect of i.v. administration on sensory units in the tooth of the cat, and lignocaine, HAEGERSTAM, G., 487
The Liver and Anaesthesia; Vol. 3 in the series *Major Problems in Anaesthesia*, STRUNIN, L., (*R*) 812
Thiopentone, comparison with Althesin. Morbidity of day-case gynaecological surgery, TOWEY, R. M. *et al.* 453
——, comparison with etomidate for induction of anaesthesia at Caesarean section, DOWNING, J. W., *et al.* 135
——, comparison with etomidate, in combination with fentanyl or diazepam, as an induction agent for general anaesthesia, KORTILLA, K., *et al.* 1151
——, hepatitis following. *A case report*, HASSELSTRØM, L., *et al.* 801
——, influence of diet on the susceptibility of *Xenopus laevis* tadpoles to, and a membrane probe, HAW, M. E., (*ARS*) 992P
——, injection, local complications, DENISON DAVIES, D. 1147
——, relative potencies of, ketamine, propanidid, alphaxalone and diazepam. *A statistical study in man*, STELLA, L., *et al.* 119
Thrombophlebitis, prevention of diazepam-induced, with cremophor as a solvent, MATTILA, M. A. K., *et al.* 391
Tracheal cuffs, comparison of, CROSS, D. E., (*C*) 69
Transplantation, and tumour immunology, CASTRO, J. E. 29
Trichloroethanol, blood concentrations of, after trichloroethylene anaesthesia, MAHONEY, P., *et al.*, (*ARS*) 67P
Trichloroethylene anaesthesia, blood concentrations of trichloroethanol after, MAHONEY, P., *et al.*, (*ARS*) 67P
——, anaesthesia, pattern of respiration and responses to carbon dioxide during, in the cat, GREGORETTI, S., *et al.* 503
——, calibration of a methoxyflurane vaporizer for, ROSENBLATT, R. M., *et al.*, (*C*) 264
——, mutagenicity of inhalation anaesthetics: diviny! ether, nitrous oxide and cyclopropane, BADEN, J. M., *et al.* 417
Trimetaphan, metabolic effects of induced hypotension with, and sodium nitroprusside, WILDSMITH, J. A. W., *et al.* 875
Tubocurarine, comparative haemodynamic effects of, and metocurine, in the dog, ANTONIO, R. P., *et al.* 1007
Tumour, and transplantation immunology, CASTRO, J. E., 29

Ventilator, paediatric, with a fluidic control system, MANSON, H. J., *et al.* 247

Wright respirometer, effect of different flow patterns of the, BUSHMAN, J. A. 895

Zoo and Wild Animal Medicine, FOWLER, M. A., (*R*) 388

CONTENTS

JANUARY

EDITORIAL: Immunology in anaesthesia and intensive care 1
J. G. Whitwam and J. Norman

SYMPOSIUM ON IMMUNOLOGY IN ANAESTHESIA AND INTENSIVE CARE

The immune system—some basic concepts 3
J. J. T. Owen

The complement system 7
B. D. Williams

Autoimmunity and autoimmune disease 13
A. J. Rees

Recent advances in immunological therapy: plasma exchange and immunosuppression 21
A. J. Pinching

Tumour and transplantation immunology 29
J. E. Castro

Effects of anaesthesia and surgery on immune status 37
B. Walton

Immunological reactions to blood and blood products 45
P. Hilgard

Anaphylactoid reactions to i.v. substances 51
J. Watkins

ABSTRACTS

Proceedings of the Anaesthetic Research Society, London Meeting, November 4, 1978 .. .. 61P

CORRESPONDENCE

Althesin in the Wolff-Parkinson-White syndrome .. 69
Comparison of tracheal cuffs 69
Test-dose in extradural analgesia 70
Buprenorphine for postoperative analgesia 71
Before cannulation of the radial artery 71
Cardiorespiratory arrests—a diurnal variation? .. 72
Insertion of nasogastric tubes 73
Anaesthesia and infant weight 73
Diazepam in cardiac surgery 74
Acid aspiration syndrome 75
Difficult intubation 75
Endotracheal intubation in Still's disease 75
Glucose tolerance during surgery and extradural anaesthesia 76
Spread of solutions in the extradural space 76

BOOK REVIEWS

Clinical Parenteral Nutrition; The Proceedings of a Parenteral Nutrition Workshop 77
The Physiology of Breathing: A Textbook for Medical Students 77
Pain Control in Obstetrics 77
Anaesthesia in Obstetrics. Maternal, Fetal and Neonatal Aspects 78

FEBRUARY

EDITORIAL: Extradural analgesia for Caesarean section 79
D. D. Moir

EXPERIMENTAL

Some physiological and metabolic effects of sodium nitroprusside and cyanide in the dog 81
P. J. Simpson, L. Adams, C. J. Vesey and P. Cole

Metabolism of sodium nitroprusside and cyanide in the dog 89
C. J. Vesey, P. J. Simpson, L. Adams and P. V. Cole

Preservation of the hypoxic pulmonary vasoconstrictor mechanism during methoxyflurane anaesthesia in the dog 99
J. L. B. Marin, B. Carruthers, M. K. Chakrabarti and M. K. Sykes

Attenuation of the diuretic effect of dopamine by droperidol in man and dogs 107
F. Goto, T. Fujita and Y. Fuse

CLINICAL INVESTIGATION

Ergometrine or oxytocin? *Blood loss and side-effects at spontaneous vertex delivery* 113
D. D. Moir and A. B. Amoa

The relative potencies of thiopentone, ketamine, propanidid, alphaxalone and diazepam. *A statistical study in man* 119
L. Stella, G. Torri and C. L. Castiglioni

Influence of airway resistance and ventilatory pattern on Pa_{CO} during enflurane anaesthesia .. 123
W. M. Wahba

Effect of preanaesthetic medication on etomidate. 127
M. Zacharias, J. W. Dundee, R. S. J. Clarke and J. E. Hegarty

Etomidate for induction of anaesthesia at Caesarean section: comparison with thiopentone 135
J. W. Downing, R. J. R. Buley, J. G. Brock-Utne and P. C. Houlton

Effects of enflurane anaesthesia and surgery on endocrine function in man 141
T. Oyama, K. Taniguchi, H. Ishihara, A. Matsuki, A. Maeda, T. Murakawa and T. Kudo

Arrhythmia during oral surgery: fascicular blocks in the cardiac conducting system 149
J. P. Alexander and J. G. Murtagh

Dose-related tachycardia induced by pancuronium during balanced anaesthesia with or without droperidol 157
P. Parmentier and P. Dagnelie

Preoperative starvation and plasma glucose concentration in children undergoing outpatient anaesthesia 161
I. F. M. Graham

CASE REPORT
Effect of haemothorax on pulmonary artery wedge pressure. *A case report* 165
G. N. C. Kenny

MARCH

EDITORIAL: Maternity services and the anaesthetist 169
A. R. Hunter and D. D. Moir

EXPERIMENTAL
Identification of susceptibility to malignant hyperpyrexia in swine 171
F. Okumura, B. D. Crocker and M. A. Denborough

Threshold concentration of nitrous oxide affecting psychomotor performance 177
R. H. Allison, A. W. Shirley and G. Smith

In vitro interaction of propanidid and suxamethonium with pooled human plasma cholinesterase. *A kinetic study* 181
P. E. Taussig, H. E. Stojak and N. R. Bennett

Failure of clinical concentrations of halothane to block adenosine diphosphate-induced platelet aggregation *in vitro* 187
D. G. Bjoraker

Canine coronary blood flow responses to hypoxaemia: the influence of halothane 193
J. P. Vance, D. M. Brown, G. Smith and J. Thorburn

Performance of a shell-type heat exchanger in extracorporeal circulation.. 199
K. A. Flower, E. A. Shaw and P. Morris

CLINICAL INVESTIGATIONS
Pulmonary mechanics during general anaesthesia. *The influence of mechanical irritation on the airway* 205
S. Dohi and M. I. Gold

A new method for measuring P_{CO_2} during anaesthesia 215
D. Z. N. Frankel, G. Sandham and A. S. Rebuck

Atropine reversal of hypercarbia during enflurane anaesthesia 221
W. M. Wahba and J. Sadkova

Cyclopropane and Caesarean section 227
M. B. Kristoffersen

Hypotensive anaesthesia for craniectomy in infancy 233
J. H. Diaz and C. H. Lockhart

Metallized plastic sheeting in the prevention of hypothermia during neurosurgery 237
P. Radford and A. C. Thurlow

Suxamethonium infusion rate and observed fasciculations. *A dose–response study* 241
A. Feingold and J. L. Velazquez

A paediatric ventilator with a fluidic control system 247
H. J. Manson, D. G. Ross and C. R. Dundas

Recordings of, and an anatomical explanation for, false positive loss of resistance during lumbar extradural analgesia 253
N. E. Sharrock

CASE REPORT
Bedside angiography of the lung by Swanz–Ganz catheter. *A case report* 259
J. J. de Lange, L. G. Thijs and C. Pearce

CORRESPONDENCE
Valvular glottic obstruction in a baby 263
Chlorazepate for premedication 263
Calibration of a methoxyflurane vaporizer for trichloroethylene 264
Use of neostigmine after snake bite 264
Dental anaesthesia 265
Hypersensitivity to atropine 265
Aspiration syndromes in pregnancy 266

BOOK REVIEWS
Monographs in Anaesthesiology, Vol. 1 268
The Isolated Heart-Lung Preparation 268

APRIL

EDITORIAL: Anaesthesia or catalepsia for neurosurgery? 269
J. Barker

EXPERIMENTAL
Cytotoxic effects of procaine, lignocaine and bupivacaine 273
J. E. Sturrock and J. F. Nunn

Effect of the chronic administration of nitrous oxide 0.5% to gravid rats 283
E. Vieira

Effect of hypercarbia on hepatic blood flow and oxygen consumption in the greyhound 289
R. L. Hughes, R. T. Mathie, D. Campbell and W. Fitch

Effect of hypotension induced with sodium nitroprusside on canine coronary arterial flow .. 297
J. P. Vance, D. M. Brown, G. Smith and J. Thorburn

Depression of hypoxic pulmonary vasoconstriction in the dog by dopamine and isoprenaline .. 303
J. L. B. Marin, C. Orchard, M. K. Chakrabarti and M. K. Sykes

CLINICAL INVESTIGATION
Comparison of flunitrazepam and diazepam for oral premedication in older children 313
F. J. Richardson and M. L. M. Manford

Comparison of i.m. pethidine, diazepam and flunitrazepam as premedicants in children undergoing otolaryngological surgery 321
L. Lindgren, L. Saarnivaara and J.-J. Himberg

Comparison of diazepam and flunitrazepam as adjuncts to general anaesthesia in preventing arousal following surgical stimuli 329
M. A. K. Mattila, K. Säilä, T. Kokko and T. Kärkkäinen

Studies of drugs given before anaesthesia. XVII: Anticholinergic premedicants 339
R. K. Mirakhur, J. W. Dundee and J. D. R. Connolly

Effect of etomidate on intracranial pressure and cerebral perfusion pressure 347
E. Moss, D. Powell, R. M. Gibson and D. G. McDowall

Presynaptic effect of i.v. anaesthetic agents at the neuromuscular junction 353
T. A. Torda and E. C. Murphy

Labetalol in controlled hypotension. *Administration of labetalol when adequate hypotension is difficult to achieve* 359
D. H. P. Cope and M. C. Crawford

Extradural analgesia for Caesarean section: comparison with general anaesthesia 367
J. W. Downing, P. C. Houlton and A. Barclay

Small endotracheal tubes. *Ventilator and intratracheal pressures during controlled ventilation* .. 375
O. Stenqvist, H. Sonander and K. Nilsson

CORRESPONDENCE

Nitrous oxide and mammary carcinoma 383
Ethical problems in intensive care 383
Extradural analgesia revisited 384
Effect of repeated administration of subanaesthetic concentrations of ether and halothane in the rat 385
The lower oesophageal sphincter and regurgitation 385

BOOK REVIEWS

Anaesthesia for Cardiac Surgery and Allied Procedures 387
Clinical Anesthesia. Procedures of the Massachusetts General Hospital 387
Pulmonary Pathophysiology—The Essentials .. 387
Principles and Practice of Obstetric Anaesthesia .. 388
Zoo and Wild Animal Medicine 388
Introduction to the Practice of Anesthesia 388

MAY

EDITORIAL: Humidification in anaesthesia .. 389
B. Hayes

EXPERIMENTAL

Measurement of the relative contributions of rib cage and abdomen/diaphragm to tidal breathing in man 391
D. Faithfull, J. G. Jones and C. Jordan

Rib cage movement during halothane anaesthesia in man 399
J. G. Jones, D. Faithfull, C. Jordan and B. Minty

Haemodynamics of cardiac tamponade during various modes of ventilation 409
C. T. Möller, C. G. Schoonbee and C. Rosendorff

Mutagenicity of inhalation anaesthetics: trichloroethylene, divinyl ether, nitrous oxide and cyclopropane 417
J. M. Baden, M. Kelley, R. I. Mazze and V. F. Simmon

Regional blood flow in normovolaemic and hypovolaemic haemodilution. *An experimental study* 423
B. Rosberg and K. Wulff

Acute and subchronic neuromuscular blocking characteristics of streptomycin: a comparison with neomycin 431
C. Lee and A. J. C. deSilva

CLINICAL INVESTIGATION

Effects of ageing on the pharmacokinetics of pancuronium 435
K. McLeod, C. J. Hull and M. J. Watson

Comparison of the actions of diazepam and lorazepam 439
J. W. Dundee, W. A. W. McGowan, J. K. Lilburn and A. C. McKay

Prevention of suxamethonium-induced changes in serum potassium concentration by hexafluorenium. *Is their combined use justified?* .. 447
P. A. Radnay, R. P. Badola, A. Dalsania, E. I. El-Gaweet and D. Duncalf

Morbidity of day-case gynaecological surgery. *A comparison of thiopentone and Althesin* 453
R. M. Towey, B. J. Stanford, R. M. Ballard and J. R. Gilbert

CASE REPORTS

Haemoptysis following insertion of a Swan–Ganz catheter 457
E. M. Krantz and J. F. Viljoen

Systemic air emoblism following induction of artificial pneumothorax under anaesthesia, with successful management 461
S. N. Khalil, V. Madan, B. M. Rigor, W. S. Fields and K. M. Unger

Congenital fibro–osseous dysplasia of jaws ("Hippopotamus face"). *An anaesthetic problem* .. 465
J. P. Kundu and A. K. Pan

CORRESPONDENCE

Adverse reactions to i.v. agents 469
Survival following 1000 mg of amethocaine .. 469
Evaluation of etomidate 470

JUNE

EDITORIAL: Neuromuscular blocking drugs .. 471
J. Norman

EXPERIMENTAL

Airway closure and fluid filtration in the lung .. 475
N. Smith-Erichsen and G. Bø

Pharmacokinetic and clinical pharmacological studies with mepivacaine and prilocaine .. 481
G. R. Arthur, D. H. T. Scott, R. N. Boyes and D. B. Scott

Effect of i.v. administration of lignocaine and tetrodotoxin on sensory units in the tooth of the cat 487
G. Haegerstam

Plasma concentrations of medazepam and its metabolites after oral administration 493
D. M. Hailey and E. S. Baird

Comparison of the respiratory effects of meptazinol, pentazocine and morphine 497
C. Jordan, J. R. Lehane, P. J. Robson and J. G. Jones

Pattern of respiration and responses to carbon dioxide during trichloroethylene anaesthesia in the cat 503
S. Gregoretti, G. B. Drummond and J. Milic-Emili

Haemodynamic consequences of citrate infusion in the anaesthetized dog: comparison between two citrate solutions and the influence of beta blockade 513
L. J. Drop and D. Scheidegger

Response of mean and phasic coronary arterial blood flow to graded hypercapnia in dogs .. 523
J. P. Vance, G. Smith, D. M. Brown and J. Thorburn

CLINICAL INVESTIGATION

Experience with spinal analgesia in a British obstetric unit 531
J. S. Crawford

Diazepam and droperidol as i.v. premedicants .. 537
G. P. Herr, J. T. Conner, R. L. Katz, F. Dorey, J. L'Armand and D. Schehl

Plasma fentanyl concentrations and clinical observations during and after operation 543
H. J. McQuay, R. A. Moore, G. M. C. Paterson and A. P. Adams

Cardiorespiratory changes following induction of anaesthesia with etomidate in patients with cardiac disease 551
M. P. Colvin, T. M. Savege, P. E. Newland, E. J. M. Weaver, A. F. Waters, J. M. Brookes and R. Inniss

Operative blood loss and the frequency of haemorrhage associated with adenotonsillectomy in children: a double-blind trial of ethamsylate .. 557
Y. R. Arora and M. L. M. Manford

ABSTRACTS

Proceedings of the Anaesthetic Research Society, Southampton Meeting, March 24, 1979 .. 563P

CORRESPONDENCE

Inadvertent administration of 100% oxygen during anaesthesia 573

Naloxone and acid–base balance in man 573
Rectal ketamine in paediatric anaesthesia .. 573
Lithium, anaesthesia and ECT 574

BOOK REVIEWS

Cerebral Vascular Smooth Muscle and its Control .. 575
Adverse Response to Intravenous Drugs 575
Pain Relief in Labour 575
Anesthetic Accidents: Case Studies 576
Sir Robert Macintosh's Lumbar Puncture and Spinal Analgesia—Intradural and Extradural 576

JULY

EDITORIAL: Anaesthetic pharmacology 577
R. S. J. Clarke and J. Norman

SYMPOSIUM ON PHARMACOLOGY

Pharmacokinetics and pharmacodynamics 579
C. J. Hull

Drug–receptor reactions 595
J. Norman

Drug metabolism 603
G. T. Tucker

Recent molecular theories of general anaesthesia .. 619
B. Wardley-Smith and M. J. Halsey

Enflurane 627
G. W. Black

New i.v. anaesthetics 641
J. W. Dundee

Inotropic agents 649
M. J. H. Scallan, J. W. W. Gothard and M. A. Branthwaite

Anti-arrhythmic drugs 659
I. W. Carson, S. M. Lyons and R. G. Shanks

Anticholinergic drugs 671
R. K. Mirakhur

Airway pharmacology 681
A. E. Tattersfield

The management of diabetes during surgery .. 693
K. G. M. M. Alberti and D. J. B. Thomas

AUGUST

EDITORIAL: On being aware 711

EXPERIMENTAL

Ketamine block of bronchospasm in experimental canine asthma 713
C. A. Hirshman, H. Downes, A. Farbood and N. A. Bergman

Prolongation by bile salts of the duration of action of a steroidal neuromuscular blocking agent .. 719
R. J. Vonk, P. Westra, M. C. Houwertjes and S. Agoston

Effect of acute hypocapnia on some aspects of renal function in anaesthetized dogs 725
J. M. Hunter, R. S. Jones, G. Lamplugh and J. E. Utting

Cytotoxicity of i.v. anaesthetic agents on the isolated rat hepatocyte 733
J. W. Sear and J. D. McGivan

CLINICAL INVESTIGATION

Pharmacokinetics of fentanyl as a possible explanation for recurrence of respiratory depression .. 741
H. Stoeckel, J. H. Hengstmann and J. Schüttler

Effects of anaesthesia and surgery on plasma aldosterone concentration and renin activity in man 747
T. Oyama, K. Taniguchi, T. Jin, T. Satone and T. Kudo

A screening test for the malignant hyperpyrexia phenotype using suxamethonium-induced contracture of muscle treated with caffeine, and its inhibition by dantrolene 753
P. J. Halsall and F. R. Ellis

I.c.p. increases with 50% nitrous oxide in oxygen in severe head injuries during controlled ventilation 757
E. Moss and D. G. McDowall

Halothane hepatitis revisited in women undergoing treatment of carcinoma of the cervix 763
H. J. Wark, B. Clifton and M. J. Bookallil

Effect of maternal position on fetal heart rate during extradural analgesia 767
K. Huovinen and K. Teramo

Has droperidol an atropinic effect? 775
P. Parmentier and P. Dagnelie

Venous sequelae following etomidate 779
M. Zacharias, R. S. J. Clarke, J. W. Dundee and S. B. Johnston

Morbidity in gynaecological day-case surgery. *A comparison of two anaesthetic techniques* 785
T. M. Hunt, O. M. Plantevin and J. R. Gilbert

Non-depolarizing neuromuscular blockers and the eye: a study of intra-ocular pressure. *Pancuronium versus alcuronium* 789
R. George, A. Nursingh, J. W. Downing and N. H. Welsh

Programmable calculator: a program for use in the intensive care unit.. 793
G. N. C. Kenny

Comparison of anti-pollution modifications of A and D anaesthetic systems 797
P. K. Andersen and P. Hole

CASE REPORT

Hepatitis following thiopentone. *A case report* .. 801
L. Hasselstrøm and M. B. Kristoffersen

CORRESPONDENCE

Diurnal variation in cardiac arrest 805
Bruxism 805
Central venous catheter design and maintenance complications 805
Regurgitation and aspiration 807
Carotid artery palpation during internal jugular vein cannulation and subsequent ventricular fibrillation 807
Simple resuscitation of the neonate 808
Test doses in extradural analgesia 808
Anaesthetics and porphyria 809
Pulmonary mechanics during general anaesthesia .. 809
Fitness to drive after anaesthesia 810
Extradural analgesia or general anaesthesia for elective section 810

BOOK REVIEWS

Artificial Ventilation for Pulmonary Disease .. 811
Epidural Analgesia 811
Drugs in Anaesthetic Practice 812
The Liver and Anaesthesia 812
Mechanical Misadventures in Anaesthesia 813
Anaesthetics, Resuscitation and Intensive Care .. 813
Interpreting the Electrocardiogram 813
Analgesic Drugs 813
Sleep Apnea Syndromes 814
Pain. Its Nature, Analysis and Treatment 814
Pediatric Trauma 814

SEPTEMBER

EDITORIAL: Symbols for compartmental models 815
C. J. Hull

EXPERIMENTAL

An animal model for the investigation of adverse responses to i.v. anaesthetic agents and their solvents 819
J. B. Glen, G. E. Davies, D. S. Thomson, S. C. Scarth and A. V. Thompson

Effects of metoprolol on systemic haemodynamics, myocardial performance and the coronary circulation during halothane anaesthesia 829
G. Burt and P. Foëx

Inhibition of neuronal and extraneuronal uptake of noradrenaline by ketamine in the isolated perfused rat heart 835
P. J. Salt, P.K. Barnes and F. J. Beswick

Metabolism of synthane: comparison with *in vivo* and *in vitro* defluorination of other halogenated hydrocarbon anaesthetics 839
R. I. Mazze, W. J. Beppu and B. A. Hitt

CLINICAL INVESTIGATION

Ambient air contamination in a dental outpatient theatre 845
J. M. Thompson, R. S. Barratt, P. Hutton, J. S. Robinson, R. Belcher and W. I. Stephen

Laminar flow enclosure—a possible risk to the patient 857
D. L. Edbrooke, T. J. I. Shaw and G. F.Kaliczek

Plasma concentrations of alphaxalone during continuous infusion of Althesin 861
J. W. Sear and C. Prys-Roberts

Dose-related haemodynamic effects of continuous infusions of Althesin in man 867
J. W. Sear and C. Prys-Roberts

Metabolic effects of induced hypotension with trimetaphan and sodium nitroprusside 875
J. A. W. Wildsmith, G. B. Drummond and W. R. MacRae
Postoperative serum cholinesterase activity following successful renal transplantation 881
D. W. Ryan
Glycopyrrolate as a premedicant: comparison with atropine 885
T. D. McCubbin, J. H. Brown, K. M. S. Dewar, C. J. Jones and A. A. Spence
Prevention of diazepam-induced thrombophlebitis with cremophor as a solvent 891
M. A. K. Mattila, M. Ruoppi, M. Korhonen, H. M. Larni, L. Valtonen and H. Heikkinen
Effect of different flow patterns of the Wright respirometer 895
J. A. Bushman

CASE REPORT

Increased carbon dioxide production in two patients with malignant hyperpyrexia and its control by dantrolene 899
F. Liebenschütz, C. Mai and V. W. A. Pickerodt

APPARATUS

An endobronchial cuff indicator for use in thoracic surgery 905
A. V. Jenkins

CORRESPONDENCE

Accuracy of anaesthetic gas flowmeters 907
Fire and explosion hazards in operating theatres: a reply and new evidence 908
Cerebral blood flow and etomidate 908
Treatment of snake bite 909
Accuracy in morphine administration 909
Test doses in extradural analgesia 910
Anticholinergic premedication 910
Adverse reactions to anaesthetic agents 911
Amethocaine 911
Inadvertent administration of 100% oxygen during anaesthesia 911

BOOK REVIEWS

Regional Anesthesia: Advances and Selected Topics 912
Advances in Neurology, Volume 20: Pathology of Cerebrospinal Microcirculation 912

OCTOBER

EDITORIAL: Viral hepatitis 913
L. Strunin

EXPERIMENTAL

Effect of an acute increase in cerebrospinal fluid pressure on lung compliance in the rabbit .. 915
J. T. Davidson, S. Cotev and Y. Frenkiel
Influence of anaesthetic agents on the survival of rats following acute ischaemia of the bowel .. 921
P. H. Bavister and D. E. Longnecker
Acute effect of fentanyl on haemodynamics and myocardial carbohydrate utilization and phosphate release during ischaemia 927
G. J. van der Vusse, H. van Belle, W. van Gerven, R. Kruger and R. S. Reneman
Effect of nitrous oxide on the cardiovascular system and coronary circulation of the dog 937
J. Thorburn, G. Smith, J. P. Vance and D. M. Brown

CLINICAL INVESTIGATION

Pharmacokinetics of fazadinium in patients with renal failure 943
P. Duvaldestin, J. C. Bertrand, D. Concina, D. Henzel, L. Lareng and J. M. Desmonts
Retrospective analysis of anaesthetics received by patients before susceptibility to malignant hyperpyrexia was recognized 949
P. J. Halsall, P. A. Cain and F. R. Ellis
Effect of diazepam at the neuromuscular junction *A clinical study* 955
E. G. Bradshaw and S. Maddison
Nefopam in postoperative pain 961
G. Phillips and M. D. A. Vickers
Cimetidine in the prevention of the pulmonary acid aspiration (Mendelson's) syndrome 967
G. Dobb, M. J. Jordan and J. G. Williams
A study of the plasma concentrations of lorazepam in mother and neonate 971
R. J. McBride, J. W. Dundee, J. Moore, W. Toner and P. J. Howard
Breath-by-breath halothane monitoring during anaesthesia. *A study in children* 979
P. Morris, M. L. Tatnall and P. G. West

CASE REPORT

Ketamine and agenesis of corpus callosum .. 983
I. F. Russell

APPARATUS

A modification of the MGA 200 mass spectrometer to enable measurement of anaesthetic gas mixtures 987
W. O. M. Davis and A. A. Spence

ABSTRACTS

Proceedings of the Anaesthetic Research Society, Glasgow Meeting, July 7, 1979 .. .. .. 989P

NOVEMBER

EDITORIAL: Research in the Eighties 997
J. W. Dundee

EXPERIMENTAL

Continuous measurement of blood-gases *in vivo* by mass spectrometry 999
P. Foëx, G. Burt, P. Maynard, W. A. Ryder and C. E. W. Hahn

Comparative haemodynamic effects of tubocurarine and metocurine in the dog 1007
R. P. Antonio, D. M. Philbin and J. J. Savarese

Oxygen transport during dopamine infusion in dogs 1011
A. Scott, M. K. Chakrabarti and G. M. Hall

Metabolic changes during dopamine infusion in dogs 1021
G. M. Hall, C. Young and A. Scott

Depression of transmitter release and postjunctional sensitivity during neuromuscular block produced by antibiotics 1027
Y. N. Singh, I. G. Marshall and A. L. Harvey

Polymixin B and heart muscle 1035
Y. Z. Sohn and R. L. Katz

Assessment of the anaesthetic and metabolic activities of dioxychlorane, a new halogenated volatile anaesthetic 1041
J. Jaramillo and J. R. Cummings

CLINICAL INVESTIGATION

Awareness during surgery—a new approach .. 1051
R. S. Cormack

Percutaneous cannulation of the dorsalis pedis artery. *A prospective study* 1055
B. Husum, T. Palm and J. Eriksen

Maternal blood-gas tensions, (P_{A-O_2} − P_{a-O_2}), physiological shunt and V_D/V_T during general anaesthesia for Caesarean section 1059
G. Lyons and M. E. Tunstall

Haemodynamic effects of dopamine and dopamine combined with nitroglycerin in patients subjected to coronary bypass surgery 1063
W. Hess, W. Klein, C. Mueller-Busch and J. Tarnow

Cardiovascular response to the i.v. administration of morphine in critically ill patients undergoing IPPV 1071
J. J. Rouby, P. Glaser, G. Simmoneau, G. Gory, R. Guesde and P. Viars

Cardiorespiratory effects of the sitting position in neurosurgery 1079
D. G. Dalrymple, S. W. MacGowan and G. F. MacLeod

Premedication in children undergoing day-care surgery 1083
P. D. Booker and D. H. Chapman

Regurgitation during pelvic laparoscopy 1089
B. L. Duffy

CORRESPONDENCE

Harrington rod spinal fusion 1091

Haemoptysis after pulmonary artery catheterization 1091

Skin sensitivity to halothane vapour 1092

Extradural analgesia for Caesarean section .. 1092

Humidification in anaesthesia 1094

Explosion during spinal anaesthesia 1094

BOOK REVIEWS

Nitroprusside and Other Short Acting Hypotensive Agents. International Anesthesiology Clinics .. 1095

Ketamine infusions: pharmacokinetics and clinical effects 1167
J. Idvall, I. Ahlgren, K. F. Aronsen and P. Stenberg

Plasma viscosity and cremophor-containing anaesthetics 1175
L. Gramstad and J. Stovner

CASE REPORT

Use of mandatory minute volume ventilation in the perioperative management of a patient with myasthenia 1181
B. D. Higgs and J. C. Bevan

APPARATUS

The Johannesburgh A–D circuit switch. *A valve device for converting a co-axial Mapleson D into a co-axial Mapleson A system* 1185
A. W. Manicom and C. G. Schoonbee

CORRESPONDENCE

Chagas' disease 1189

Skin penetration of ketocaine 1189

Index to Volume 51 1191

SUPPLEMENT 1

PROCEEDINGS OF A SYMPOSIUM ON CURRENT TRENDS IN OBSTETRIC ANALGESIA

INTRODUCTION
D. B. Scott 1S
Opening remarks 1S
J. Lassner

NERVOUS PATHWAYS AND METHODS OF ANALGESIA IN LABOUR

Peripheral mechanisms and pathways of parturition pain 3S
J. J. Bonica

DISCUSSION 9S

Systemic and inhalation analgesia 11S
M. Rosen

DISCUSSION 14S

Regional techniques of analgesia in labour .. 17S
A. Hollmén

DISCUSSION 24S

EFFECTS OF OBSTETRIC ANALGESIA IN FETUS AND NEONATE

Placental transfer and fetal uptake of drugs .. 25S
M. Finster and H. Pedersen

Metabolism of local anaesthetics in the fetus, newborn and adult 29S
C. A. DiFazio

DISCUSSION 33S

Neurobehavioural effects of obstetric analgesia .. 35S
G. W. Ostheimer

Effect of obstetric regional analgesia on the change in respiratory frequency in the newborn .. 41S
L.-E. Bratteby, L. Andersson and S. Swanström

DISCUSSION 45S

PRACTICAL MANAGEMENT OF OBSTETRIC ANALGESIA

Comparative study of various local anaesthetic solutions in extradural block in labour .. 47S
D. G. Littlewood, P. Buckley, B. G. Covino, D. B. Scott and J. Wilson

The teaching of obstetric extradural analgesia
A personal view 53S
A. Doughty

DISCUSSION 57S

CONCLUDING REMARKS 66S
